## Iridium 9555 Basic Kit

**New \$1,199 | Used \$945**

The 9555 has a stronger signal strength & clearer voice quality than the previous models. The main improvements to the previous model, the 9505A, is it's 30% smaller & lighter. With the 9555 it is also easier to send outgoing SMS messages. This model has an internally retractable antenna, mini-usb data port for sending emails & a speaker phone.

\*\* New Iridium Extreme has been launched but the 9555 will continue to be manufactured \*\*

New & Used Kits include:  
1 Li-Ion battery, AC Wall Charger & international plug kit, DC car charger, holster, USB to mini-USB data cable, hands-free headset, mag-mount antenna & adapter, manual. We also provide you with our own easy-to-understand dialing instructions.  
\*\*\* New Phones(1 year warranty) & Used Phones(6 month warranty) \*\*\*

## Iridium 9505A Complete Kit

**Used \$845**

The 9505A is the second generation handset, this model is quite light and small compared to the Iridium 9500. The voice quality and signal strength is also improved over the 9500. Iridium is the only satellite network that covers the whole globe from pole to pole!

Includes:

2 Li-Ion batteries, AC Wall charger & international plug kit, DC car charger, mag-mount antenna(5' cable) with antenna adapter, hands-free headset, manual and hard waterproof case. We also provide you with our own easy-to-understand dialing instructions.

\*\*\* 6 month warranty \*\*\*

## Iridium 9500 Complete Kit

**Used \$545**

The 9500 was the first model of satellite phone released by Iridium. Although this phone is larger and heavier than the 9505A & 9555, this option offers a cost effective way to gain access to Iridium's completely global service. A great economical choice for Emergency Users.

Includes:

2 Li-Ion batteries, AC wall charger & DC car charger, mag-mount antenna(5' cable) with antenna adapter, manual and hard waterproof case. We also provide you with our own easy-to-understand dialing instructions.

\*\*\* 6 month warranty\*\*\*
